### RFP Number 3870 is hereby amended as follows:

1. Section VII: Technical Specifications Item 13 is deleted

The following questions were submitted to ITS and are being presented as they were submitted, except to remove any reference to a specific vendor. This information should assist you in formulating your response.

**Question 1:** Which phases (I, II, and/or III) is this RFP asking for responses to?

**Response:** Phases I and II

**Question 2:** (Section VII, # 9.3.1.3, p41) When asking for a sample deliverable, are you requesting the entire document or will a few representative pages suffice?

**Response:** A representative example

**Question 3:** Vendor Responses listed in Section VII, #13 (p49) seem geared towards COTs products (e.g. "exists in base system", "minor customization") when specifications in many instances requires the Vendor to simply indicate acceptance. How does the government wish vendors to indicate acknowledgment/acceptance for the requisite specifications?

**Response:** Vendors should disregard the instruction for Section VII Item 13. Vendors should use the instructions found in Section VII Item 1. See amendment number 1 above.
